

Dark Fibre Services

Toronto Hydro Telecom Dark Fibre service offers Carrier and Enterprise customers the leased strands of fibre optic cable used to build transport networks between locations on Toronto Hydro Telecom's fibre network. Toronto Hydro Telecom Dark Fibre customers have the option to install and manage their own optical equipment to transport data at whatever speed desired.

Toronto Hydro Telecom owns an extensive fibre optic network connecting over 400 buildings in the City of Toronto. Toronto Hydro Telecom's network is also interconnected with most major carrier networks in and around Toronto.

No Speed Limits	Toronto Hydro Telecom Dark Fibre enables customers to leverage the fibre optic cable to its full capacity without any sharing or limitation.
Optional Redundancy	Toronto Hydro Telecom Dark Fibre offers you the option to lease fibre pairs on common or diverse routes to build redundancy and/or diversity into your network.
Fast Provisioning	Toronto Hydro Telecom offers one of the shortest provisioning cycles in the industry. This helps to minimize your set-up time and maximize return on your investment.
Private & Secure	Toronto Hydro Telecom Dark Fibre is a physically dedicated point-to-point service and is therefore inherently secure.
Service Excellence	Toronto Hydro Telecom offers around the clock customer support with technical staff available 24 hours a day, 7 days a week through its Network Operations Centre (NOC).
